K I T C H E N[®] Refrigerator Q & A

Refrigerator:

[For HRF3601F]

1. Can you hook water line for ice maker for a reversed osmosis?

You can not hook up the water line to a reversed osmosis system. Water pressure is too low

2. Child lock system?

The refrigerator continues to work functionally when child lock is on, but you can not operate the control panel;

3. If the door is left open for more than 1 min, the interior light will automatically shut off;

4. How to use the ice maker?

You could turn on/ turn off the ice maker from the control board or from the ice maker bail arm;

5. Filter?

We do not supply a water filter, you need to purchase it from local supplies;

6. Temperature Setting?

The Refrigerator are set at pre-set temperature from the factory.

7. Water Line Adaptor?

We do not supply water line connection to House water Supply.
