APPLIANCE SAFETY

Your safety and the safety of others are very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the Safety Alert Symbol. This symbol alerts you to potential hazards that can kill or injure you and others. All safety messages will follow the Safety Alert Symbol and either the words "DANGER", "WARNING" or "CAUTION".

Danger means that failure to heed this safety statement may result in severe personal injury or death.

Warning means that failure to heed this safety statement may result in extensive product damage, serious personal injury, or death.

Caution means that failure to heed this safety statement may result in minor or moderate personal injury, or property or equipment damage.

All safety messages will alert you do what the potential hazard is, tell you how to reduce the chance of injury, and let you know what can happen if the instructions are not followed.
IMPORTANT SAFE GUIDES

Before the appliance is used, it must be properly positioned and installed as described in this manual, so read the manual carefully. To reduce the risk of fire, electrical shock or injury when using the appliance, follow basic precaution, including the following:

- Plug into a grounded 3-prong outlet, do not remove grounding prong, do not use an adapter, and do not use an extension cord.
- Replace all panels before operating.
- It is recommended that a separate circuit, serving only your appliance be provided. Use receptacles that cannot be turned off by a switch or pull chain.
- Never clean appliance parts with flammable fluids. These fumes can create a fire hazard or explosion. And do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion.
- Before proceeding with cleaning and maintenance operations, make sure the power line of the unit is disconnected.
- Do not connect or disconnect the electric plug when your hands are wet.
- Unplug the appliance or disconnect power before cleaning or servicing. Failure to do so can result in electrical shock or death.
- Do not attempt to repair or replace any part of your appliance unless it is specifically recommended in this material. All other servicing should be referred to a qualified technician.

FOLLOW WARNING CALL OUTS BELOW ONLY WHEN APPLICABLE TO YOUR MODEL

- Use two or more people to move and install appliance. Failure to do so can result in back or other injury.
- To ensure proper ventilation for your appliance, the front of the unit must be completely unobstructed. Choose a well-ventilated area with temperatures above 60°F (16°C) and below 90°F (32°C). This unit must be installed in an area protected from the element, such as wind, rain, water spray or drips.
- The appliance should not be located next to ovens, grills or other sources of high heat.
- The appliance must be installed with all electrical, water and drain connections in accordance with state and local codes. A standard electrical supply (115 V AC only, 60 Hz), properly grounded in accordance with the National Electrical Code and local codes and ordinances is required.
- Do not kink or pinch the power supply cord of appliance.
- The fuse (or circuit breaker) size should be 15 amperes.
- It is important for the appliance to be leveled in order to work properly. You may need to make several adjustments to level it.
- Never allow children to operate, play with or crawl inside the appliance.
- Do not use solvent-based cleaning agents of abrasives on the interior. These cleaners may damage or discolor the interior.
- Do not use this apparatus for other than its intended purpose.

IMPORTANT SAFETY INSTRUCTIONS

WARNING

To reduce the risk of fire, electrical shock, or injury when using your appliance, follow these basic precautions:

• Read all instructions before using the appliance.
• DANGER or WARNING: Risk of child entrapment.
  Child entrapment and suffocation are not problems of the past. Junked or abandoned appliances are still dangerous . . . even if they will “just sit in the garage a few days”.
• Before you throw away your old appliance: Take off the door. Leave the shelves in place so that children may not easily climb inside.
• Never allow children to operate, play with, or crawl inside the appliance.
• Never clean appliance parts with flammable fluids. The fumes can create a fire hazard or explosion.
• Do not store or use gasoline or any other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion.

-Save these instructions-

ELECTRICAL CONNECTION

Warning

Improper use of the grounded plug can result in the risk of electrical shock. If the power cord is damaged, have it replaced by a service center authorized by Thor Group.

This appliance should be properly grounded for your safety. The power cord of this appliance is equipped with a three-prong plug which mates with standard three prong wall outlets to minimize the possibility of electrical shock.

Do not under any circumstances cut or remove the ground prong from the power cord supplied. For personal safety, this appliance must be properly grounded.

This appliance requires a standard 115/120 Volt AC ~/60Hz electrical ground outlet with three-prong. Have the wall outlet and circuit checked by a qualified electrician to make sure the outlet is properly grounded. When a standard 2-prong wall outlet is encountered, it is your responsibility and obligation to have it replaced with a properly grounded 3-prong wall outlet.

The cord should be secured behind the appliance and not left exposed or dangling to prevent accidental injury.

The appliance should always be plugged into its own individual electrical outlet which has a voltage rating that matches the rating label on the appliance. This provides the best performance and also prevent overloading house wiring circuits that could cause a fire hazard from overheated. Never unplug the appliance by pulling the power cord. Always grip the plug firmly and pull straight out from the receptacle. Repair or replace immediately all power cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion damage along its length or at either end. When moving the appliance, be careful not to damage the power cord.

EXTENSION CORD

Because of potential safety hazards under certain conditions, it is strongly recommended that you do not use an extension cord with this appliance. However, if you must use an extension cord it is absolutely necessary that it be a UL/CUL-Listed, 3-wire grounding type appliance extension cord having a grounding type plug and outlet and that the electrical rating of the cord be 115 volts and at least 10 amperes.
INSTALLATION INSTRUCTIONS

➤ **BEFORE USING YOUR APPLIANCE**

- Remove the exterior and interior packing.
- Check to be sure you have all of the following parts:
  
<table>
<thead>
<tr>
<th>Model TBC2401DI</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
</tr>
<tr>
<td>6</td>
</tr>
<tr>
<td>3</td>
</tr>
<tr>
<td>2</td>
</tr>
</tbody>
</table>

- Before connecting this appliance to the power source, let it stand upright for approximately 2 hours. This will reduce the possibility of a malfunction in the cooling system from handling during transportation.
- Clean the interior surface with lukewarm water using a soft cloth.

➤ **INSTALLATION OF YOUR APPLIANCE**

- This appliance is designed for free standing installation or built-in (fully recessed).
- Place your appliance on a floor that is strong enough to support it when it is fully loaded. To level your appliance, adjust the front leveling legs at the bottom of the appliance.
- Locate the appliance away from direct sunlight and sources of heat (stove, heater, radiator, etc.). Direct sunlight may affect the acrylic coating and heat sources may increase electrical consumption. Extreme cold ambient temperatures may also cause the unit not to perform properly.
- Avoid locating the unit in moist areas.
- Plug the appliance into an exclusive, properly installed-grounded wall outlet. Do not under any circumstances cut or remove the third (ground) prong from the power cord. Any questions concerning power and/or grounding should be directed toward a certified electrician or a service center authorized by Thor Group.

➤ **BUILT – IN CABINET INSTRUCTIONS**

This unit is designed for both built-in or free standing installation. If you plan to use this unit in a built-in application, please follow the requirements shown below.

**INSTALLING STAINLESS STEEL HANDLE**

This cooler includes two stainless steel handles that are not installed by the factory. To install the handle please follow the below instructions:

1. Pull away the door gasket in the area where the handle is to be installed as shown below in Illustration # 1. The gasket is easily displaced by hand, no tools are necessary.
2. Align the handle with the screws pre-installed on the backside of the door. Tighten the screws using a Phillips head screwdriver until the handle sets both flush and secured tightly against the door frame. (DO NOT overtighten as this will cause damage to the handle assembly).
3. Replace the door gasket to its original position.

OPERATING YOUR APPLIANCE

It is recommended you install the appliance in a place where the ambient temperature is between 61º - 100º F (16º-38º C). If the ambient temperature is higher or lower than recommended temperatures, the performance of the unit may be affected. For example, placing your unit in extreme cold or hot conditions may cause interior temperatures to fluctuate, then the range of 41º-65º F (5º-18º C) may not be reached.

Control Panels of the Wine & Beverage Cooler

- **ON/OFF POWER**
  - Press and hold \[\text{on/off power}\] for 2 seconds on control panel to turn on or turn off the cooler, when cooler is turned off, the appliance will stop working and total shut down.

- **LIGHT SETTING**
  - There are two light modes, press and hold \[\text{light setting}\] for 3 seconds to select a light mode.
  1. Light on and off mode: The default setting of light will be controlled by sensor and LCD screen will show \[\text{on/off mode}\], when door is opened, the light will turn on automatically, when door is closed, the light will be turned off.
  2. Light on model: Press and hold \[\text{light on mode}\] for 3 seconds to enter light on mode, when in this mode, LCD screen will display \[\text{light on mode}\] and light will always be on.

- **TEMPERATURE SETTING**
  - Press \[\text{temperature up}\] or \[\text{temperature down}\] to adjust the temperature of the appliance and each press on the button will alter the temperature by 1º F or 1º C.
  - Press \[\text{temperature up}\] and \[\text{temperature down}\] together and hold for 3 seconds to change temperature display from Celsius to Fahrenheit or from Fahrenheit to Celsius.
➤ **WARNING SYSTEM**

1. Door open alarm: When door has been opened for over 5 minutes, door open alarm will be on and LCD screen display 🚭 and beep 3 times every 5 seconds, press any key or close the door to stop the alarm.

2. Low temperature alarm: When inside temperature is below 35.6° F (2° C) for over 3 hours, it will beep to alarm and LCD screen will display ⚠️ ⚠️ L; Press any key to stop the beeping alarm.

3. High temperature alarm: When inside temperature is above 77° F (25° C) for over 6 hours, it will beep to alarm and LCD screen will display ⚠️ ⚠️ H. Press any key to stop the beeping alarm.

4. Low humidity alarm (Optional): When humidity is less than 40%RH for over 3 hours, LCD screen will display ⚠️ ⚠️ L, warning mark will disappear when humidity returns to normal range.

5. High humidity alarm (Optional): When humidity is higher than 80%RH for over 1 hour, LCD will display ⚠️ ⚠️ H, warning mark will disappear when humidity returns to normal.
CARE AND MAINTENANCE

- **CLEANING YOUR APPLIANCE**
  - Turn off the power, unplug the appliance, and remove all items including shelves.
  - Wash the inside surfaces with a warm water and baking soda solution. The solution should be about 2 tablespoons of baking soda to a quart of water.
  - Wash the shelves with a mild detergent solution.
  - Wring excess water out of the sponge or cloth when cleaning area of the controls, or any electrical parts.
  - Wash the outside cabinet with warm water and mild liquid detergent. Rinse well and wipe dry with a clean soft cloth.
  - Do not use steel wool or steel brush on the stainless steel. These will contaminate the stainless steel with steel particles and rusting may occur.

- **POWER FAILURE**
  - Most power failures are corrected within a few hours and should not affect the temperature of your appliance if you minimize the number of times the door is opened. If the power is going to be off for a longer period of time, you need to take the proper steps to protect your contents.

- **MOVING YOUR APPLIANCE**
  - Remove all items.
  - Securely tape down all loose items (shelves) inside your appliance.
  - Tape the door shut.
  - Be sure the appliance stays secure in the upright position during transportation. Also protect outside of appliance with a blanket, or similar item.

- **ENERGY SAVING TIPS**
  - The appliance should be located in the coolest area of the room, away from heat producing appliances, and out of the direct sunlight.

- **CHARCOAL FILTRATION SYSTEM**
  Your wine is a living object that breathes through the cork of its bottle. In order to preserve the quality and taste of your fine wines, they must be stored at the ideal temperature and ambient conditions. Your cellar is equipped with an active charcoal filtration system to ensure air purity, cooling efficiency, and to maintain an odor free cabinet for the storage of your good wine. The filter assembly is located at the rear panel inside your cooler.
  Keep in mind, that this filter must be changed every 12 months.
  To replace your filter:
  1. Remove the bottles / cans stored on the two shelves in front of the filter.
  2. Remove the shelves and set aside to be replaced once you have changed the filter.
  3. Hold the filter and turn it at 90 degrees in the anti-clockwise direction and then pull it out.
  4. Remove the existing filter and replace with a new one.
  5. Put the new filter into the hole and then turn the filter at degrees in clockwise direction.
# Troubleshooting Guide

## Problems with Your Appliance?

You can solve many common problems easily, saving you the cost of a possible service call. Try the suggestions below to see if you can solve the problem before calling the servicer.

### Troubleshooting Guide

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Cause</th>
</tr>
</thead>
</table>
| Appliance does not operate. | Not plugged in.  
The appliance is turned off.  
The circuit breaker tripped or a blown fuse. |
| Appliance is not cold enough. | Check the temperature control setting.  
External environment may require a higher setting.  
The door is opened too often.  
The door is not closed completely.  
The door gasket does not seal properly. |
| Turns on and off frequently. | The room temperature is hotter than normal.  
A large amount of contents has been added to the unit.  
The door is opened too often.  
The door is not closed completely.  
The temperature control is not set correctly.  
The door gasket does not seal properly. |
| The light does not work. | Not plugged in.  
The circuit breaker tripped or a blown fuse.  
The light button is “OFF”. |
| Vibrations. | Check to assure that the appliance is level. |
| The appliance seems to make too much noise. | The rattling noise may come from the flow of the refrigerant, which is normal.  
As each cycle ends, you may hear gurgling sounds caused by the flow of refrigerant in your appliance.  
Contraction and expansion of the inside walls may cause popping and crackling noises.  
The appliance is not level. |
| The door will not close properly. | The appliance is not level.  
The gasket is dirty.  
The shelves are out of position. |

Warranty

This product has been manufactured by Thor Group, 13831 Oaks Ave, Chino, California 91710.

Thor Group disclaims all express warranties except for the following:

This warranty applies to products purchased and located in the United States. Products purchased or located outside this area are excluded.

The warranty does not apply to damage resulting from abuse, accident, natural disaster, loss of electrical power to the product for any reason, alteration, outdoor use, improper installation, and improper operation, repair or service of the product by anyone other than an authorized Thor Group, service agency or representative.

Warranties and Duration

Full warranty for Parts and Labor: first year parts and labor, second year only parts.

Implied warranties terminate upon expiration of the limited warranty. Some states do not allow limitations on how long implied warranty lasts, so the above limitation may not apply to your implied warranty.

Thor Group will pay for:

All repair labor and cost of replacement parts found to be defective due to material and workmanship. Service must be provided by a Thor Group Authorized Service Agency during normal working hours.

For a Service Agency nearest you, please call 877-288-8099.

Thor Group will not pay for:

This limited warranty does not cover:

1. Service to instruct you on how to use your wine cooler to correct house wiring, replace or repair house fuses, service to correct the installation of your wine cooler.

2. Repairs when your wine cooler is used for other than normal, single-family household use or when it is used in a manner that is contrary to published user or operator instructions and/or installation instructions.

3. Cosmetic damage, including chips, dents, scratches or other damage to the finish of your wine cooler, unless such damage results from defects in materials or workmanship and is reported to Thor Group within 30 days from the date of purchase.

4. Costs associated with the removal from your home of your wine cooler for repairs. This wine cooler is designed to be repaired in the home and only in-home service is covered by this warranty.

5. Damage resulting from misuse, alteration, accident, abuse, fire, flood, acts of God, improper installation, installation not in accordance with electrical, or use of consumables or cleaning products not approved by Thor Group.

6. Service to repair or replace consumable parts. Consumable parts are not included in the warranty coverage.

7. The removal and reinstallation of your wine cooler if it is installed in an inaccessible location or is not installed in accordance with published installation instructions.
8. This warranty is void if the factory applied serial number has been altered or removed from your wine cooler.

9. Repairs to parts or systems resulting from unauthorized modifications made to the appliance.

10. Expenses for travel and transportation for product service if your wine cooler is located in a remote area where service by an authorized Thor Group servicer is not available.

11. In any circumstance, Thor does not pay for food loss claims on wine cooler products

The warranty applies to appliances purchased and used for personal, family or household purposes only. It does not cover appliances used for commercial applications.

Should the appliance be sold by the original purchaser during the warranty period, warranty shall extend to the new owner until the expiration date of the original purchaser warranty period.

**Warranty and Product Registration**

Thor Group is not responsible for incidental or consequential damages. Under no circumstances will Thor Kitchen’s liability exceed the cost that you paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. Whenever you call our customer service at 877-288-8099 (THORKITCHEN WINE COOLER) for technical information and parts sales in the United States or to request service for your appliance, please have your complete model number and serial number ready. The model and serial number can be found on the product data plate. Please enter the information requested in the spaces provided.
